

# Presenting the Project

## The Display Board –

All tri-fold display boards need to measure  
**36" tall x 48" wide**

The following information should be included on the display unit:

(**NOTE:** Display boards are set up to read from left to right AND top to bottom – following the steps of the Scientific Method)

<u>Question</u>	<u>Title of Project</u>	<u>Results</u>
<u>Background info.</u> Summary of five Lit. Reviews	<u>Procedure</u>  Charts, Graphs, <b>Pictures</b> (Visual of the data collected)	(Written explanation of your charts and graphs)
<u>Hypothesis</u> (If...,then...because...)		<u>Conclusion</u>
<u>Independent variable</u>		<div>There must be a 'sticker' somewhere on the board acknowledging who took the pictures on the board. If you used clip art images you must cite the source these images came from.</div>
<u>Dependent variable</u>		

**"Notebook" of original data  
collected during the  
experiment**

Abstracts  
Minimum of 10 copies

You may have different display items present on the table in front of your board, however please check the Display and Safety Guidelines BEFORE deciding to include a particular item!
